Important information

You will receive a letter to let you know the outcome of your application.

Healthcare Identifiers Service

The HI Service is a system that provides a consistent set of identifiers for individuals and healthcare providers. Healthcare identifiers provide a way to match the correct record to the person being treated. This improves accuracy when health information is shared between healthcare providers.

The *Healthcare Identifiers Act 2010* is available at www.legislation.gov.au

Healthcare identifier

A healthcare identifier is a unique 16 digit number that is assigned and used to identify everyone associated with healthcare in Australia. No clinical information is linked to the identifier. You do not need to remember your IHI to receive healthcare.

If an IHI is being requested for a person under 14 years of age, it will be created using the address of the parent or guardian.

My Health Record

A My Health Record is an online summary of an individual's health information. It can be accessed at any time by the individual and their healthcare providers. You can get a My Health Record after you get your IHI.

For more information about My Health Record, go to www.myhealthrecord.gov.au

Evidence of identity

You must provide **1** certified document from the Primary group or **2** certified documents from the Secondary group for each person applying for an IHI. The names in these documents must be identical. Documents provided must be current at time of application.
