Healthcare Identifiers Service

El Servicio HI es un sistema que proporciona una serie constante de identificadores para las personas y los proveedores de atención de la salud. Los identificadores de atención de la salud permiten correlacionar el expediente correcto con la persona bajo tratamiento. Esto aumenta la exactitud al intercambiar información sanitaria entre proveedores de atención de la salud.

Puede consultar la ley *Healthcare Identifiers Act 2010* en www.legislation.gov.au

Healthcare identifier

El identificador de atención de la salud es un número único de 16 dígitos asignado y utilizado para identificar a todas las personas asociadas con la atención de la salud en Australia.

El identificador no está vinculado con información clínica alguna. No es necesario que recuerde su IHI para recibir atención de la salud.

Si se solicita un IHI para un/a menor de 14 años de edad, éste será creado con el domicilio del padre/madre o tutor.

My Health Record

El My Health Record es un resumen en línea de la información sanitaria de la persona. Tanto la persona como sus proveedores de atención de la salud pueden tener acceso a éste en cualquier momento. Podrá obtener un My Health Record después de obtener su IHI.

Healthcare Identifiers Service

If an IHI is being requested for a person under 14 years of age, it will be created using the address of the parent or guardian.

My Health Record

A My Health Record is an online summary of an individual's health information. It can be accessed at any time by the individual and their healthcare providers. You can get a My Health Record after you get your IHI.
