We've been working with employers and the ATO to improve the way employment information is linked to Centrelink payments.

This is called Single Touch Payroll.

It'll help you get the right Centrelink payment, at the right time.

To make reporting your income simpler, you won't need to manually fill in your pay details.

To get paid on time simply confirm the pay information on your reporting date.

We're also adding other improvements to your online accounts.

Now when you log on to your Centrelink online account or Centrelink Express Plus app, you'll see the pay details your employer sent the ATO.

All you need to do is make sure it's correct, add additional details if needed, and hit continue.
