

# Social Security Agreement between Australia and Latvia

## Australia's social security system

Australia's social security system is different to most other countries. Each person's pension is paid by the Australian Government out of general funds, rather than through contributions paid into a social insurance fund. For this reason, Australian pensions are income and asset tested.

You will have to tell us about all of your, and if you have a partner<sup>1</sup>, your partner's<sup>1</sup> income and assets if you want to claim an Australian pension.

## How does the agreement help you?

If you live in Australia or Latvia, the agreement generally allows you to submit a claim for an Australian or Latvian payment. It also allows you to add together your periods of residence in Australia and periods of social security coverage in Latvia, so you can meet any minimum requirements for payment.

## Australian payments

We make all decisions about Australian payments.

## Who can get an Australian payment?

To qualify under the agreement, you generally need to meet the following basic requirements:

Australian payment	Basic qualifications:
<b>Age Pension</b>	<ul style="list-style-type: none"><li>• you must have reached the qualifying age (refer to <a href="https://servicessaustralia.gov.au/agepension">servicessaustralia.gov.au/agepension</a> for details), and</li><li>• your total Australian residence<sup>2</sup> combined with your period(s) of coverage in Latvia must add up to at least 10 years.</li></ul>

### Notes:

- There may be additional requirements you need to meet before you can be paid.
