

Social Security Agreement between Australia and Spain

Australia's social security system

Australia's social security system is different to most other countries. Each person's pension is paid by the Australian Government out of general funds, rather than through contributions paid into a social insurance fund. For this reason, Australian pensions are income and asset tested.

You will have to tell us about all of your, and if you have a partner¹, your partner's¹ income and assets if you want to claim an Australian pension.

How does the agreement help you?

If you live in Australia, Spain or another specified agreement country⁵, the agreement generally allows you to submit a claim for payment for an Australian or Spanish payment. It also allows you to add together your periods of residence in Australia and periods of social security coverage in Spain, so you can meet any minimum requirements for payment.
