Disability Support Pension Review for portability

## Information for the customer and the doctor

This Medical Report has been issued by Services Australia so we can gather additional medical information.

The Medical Report must be fully completed by you and a treating doctor or specialist. This information will help us in determining:

- income support eligibility
- if the customer is eligible to receive payments indefinitely while outside Australia
- if the customer may benefit from a program of support, for example, rehabilitation or training
- if the customer is eligible to enter the Supported Wage System.

#### Instructions for the customer

It is important that you take the time to read all of this information. Your details are updated regularly to make sure your payment is correct and to identify any help we can give you.

- 1 Section A To be completed by you Section B To be completed by doctor
- 2 Make an appointment with the doctor or specialist

Please read the instructions at the front of Section B before making the appointment.

Fill in the details about you in Section A
If you need help filling in the form or getting a
report from your doctor, call us on 132 717.
To speak to us in languages other than English,
call 131 202.

Please fold the form and place it in the reply paid

If you have a hearing or speech impairment call our **TTY service** Freecall™ **1800 810 586.** A TTY phone is required to use this service.

A Return Section A to us

Returning your form

envelope.

Return it to us in one of the enclosed reply paid envelopes as soon as possible. Include a copy of any reports relevant to your medical condition that you have not given to us before.

- Give Section B to the doctor with the other reply paid envelope
- 6 If the doctor gives this report back to you Return it to us as soon as possible in the other reply paid envelope. Otherwise, ask the doctor to send it back to us in the reply paid envelope.

Your doctor will not be able to submit this report to us through a secure online facility.

#### **IMPORTANT**

This request is a notice given under section 63 of the Social Security (Administration) Act 1999. This means that both Section A and Section B must be returned to us before the return date shown at the top of this form. If both sections are not returned within this time, your payment may be stopped under section 80 of the Social Security (Administration) Act 1999.

## **Medical Report**

Disability Support Pension Review for portability

fold here

#### Instructions for the customer

- Fill in Section A and return it to us in one of the reply paid envelopes.
- Contact your doctor or specialist and make an appointment to have the Medical Report Section B completed.

Make sure the doctor and their receptionist know that you will need this report completed, as a long consultation may be required. If your doctor does not bulk bill, your consultation fee may be more than usual because of the extra time taken to complete the report.

- Attend the appointment with your doctor or medical specialist.
- 4 Give Section B of this report, and a reply paid envelope, to the doctor to complete. Your doctor will not be able to submit this report to us through a secure online facility.

#### Information for the doctor

#### This information will help us in determining:

- · income support eligibility
- if the customer is eligible to receive payments indefinitely while outside Australia
- if the customer may benefit from a program of assistance or training
- if the customer is eligible to enter the Supported Wage System.

#### Completing this report

In this report you will be asked to provide information about your patient's medical condition(s). Please complete all the required questions in this report.

If you need more information in order to complete the Medical Report call us on **132 150.** 

#### Returning this report

You can give this report and any attachments to your patient or you can return it/them to us in the reply paid envelope issued to the customer with this form. Alternatively, post this form to

#### Services Australia, International Services, Reply Paid 7809, CANBERRA BC ACT 2610.

#### **Reimbursement for Services**

We have asked your patient to let you (and your receptionist) know at the time of making their appointment that they require you to complete this report. This is to make sure that you have sufficient time for the examination and completion of the report. The time taken to complete this report counts towards the length of the consultation. You can claim it as a long consultation.

AUS222.2303 10 of 10

# Assessment for Disability Support Pension (DSP) customers going overseas under the no future work capacity provisions 008-03120040

Currently published version valid from 2/08/2024 11:28 PM

## **Background**

#### s22 - Irrelevant material

This document outlines the procedure to determine if a DSP customer travelling overseas satisfies the 'no future work capacity' portability provisions for continuing payment.

#### **Role of Centrelink International Services (CIS)**

Customers who want to test their eligibility under the 'No future work capacity' (NWC) portability provisions, must be referred to CIS. CIS will issue medical forms (if required) and refer the customer for a long-term overseas travel assessment.

CIS Service Officers determine if a DSP customer should be transferred to International Disability Officers (IDOs) for a long-term overseas travel assessment.

#### No future work capacity provisions

DSP is generally paid for up to 4 weeks in a rolling 12 month period if a customer is travelling overseas temporarily. Generally if a customer is leaving Australia to live in another country, DSP will cease immediately on departure. If they are subject to <u>former resident provisions</u>, DSP will cease on departure unless they meet the rules for, and can be paid under, an <u>international social security agreement</u>.

However if a customer satisfies the 'No future work capacity' portability provisions, their DSP may continue indefinitely, even if they leave to live in another country. This provision does not apply to former residents until they have been in Australia for 2 years from the date of resumed residence. The NWC assessment will usually require completion of a medical review, which will include a:

- · medical report by the customer's treating doctor, and
- Job Capacity Assessment (JCA) that must be conducted before the customer departs Australia

As the assessment must be made before the customer leaves Australia, it is necessary to arrange both the issuing of the medical report forms and booking of a JCA appointment quickly. Tell the customer that the assessment must be conducted before their departure overseas if they want DSP to be payable under the NWC portability provisions.

The customer must also be made aware that as a result of the medical assessment they may no longer be considered to satisfy the medical qualifications for DSP, which will result in the cancellation of their DSP. For this reason, the customer may decline to have the medical assessment. In this case their portability options will be limited. When the 47E(d) is run, a warning about possible DSP cancellation is generated. An assessment under the NWC provisions is entirely voluntary.

#### New medical report may be required

For a NWC assessment, a new medical report is required even if the customer has an existing <u>current and valid assessment of their</u> <u>work capacity</u> report, unless that report was specifically for portability purposes.

The Medical Report Disability Support Pension Review for portability (AUS222) form:

· contains extra portability questions

about:blank 1/13

- must be completed by the customer's treating doctor in Australia, and
- returned before the customer attends their Job Capacity Assessment (JCA)

CIS will issue the AUS222 when a request is received.

#### JCA referral may be required

Only CIS staff can make a JCA referral for a customer under the NWC provisions. Do not request a JCA for these customers using another referral reason. The portability specific referrals have different questions to a medical review JCA which address the customer's long term prognosis of impairments and work capacity. If the report is completed for the incorrect reason, it cannot be used for portability and customers can be disadvantaged.

For a NWC assessment, a JCA referral is still required, even if the customer has an existing <u>current and valid assessment of their work capacity</u>, unless the assessment was specifically for portability purposes.

Do not refer the customer for a NWC JCA if they previously had a portability NWC assessment and met the requirements for indefinite portability.

If there is a current and valid assessment of the customer's work capacity and the customer has previously had a portability NWC assessment and has **not** met the requirements for indefinite portability, a new referral for a JCA is not required unless the customer has had a substantial change in circumstances. 47E(d)

The customer may choose

to assess their eligibility again under the NWC provisions but must be made aware of the possibility of cancellation of their DSP.

#### Pre-referral information gathering and checking

As the customer needs to have a JCA appointment before leaving Australia, skilled CIS staff must book an appointment as soon as possible. Scan and attach any additional documentation received from the customer to their record. Any other medical information that becomes available after the JCA referral has been started, needs to be scanned and attached to the customer's record as soon as possible.

Historical information may also need to be scanned 47E(d)

#### **Manifest DSP Customers**

A person who is <u>manifestly qualified for Disability Support Pension (DSP)</u> generally qualifies automatically for indefinite portability under the NWC provisions.

However, the manifest medical assessment is not a portability assessment.

A **decision** that the customer is eligible for indefinite portability must be made **before** the customer departs Australia. In order to make this decision, the customer must have contacted Services Australia **before** leaving Australia.

A manifest DSP customer:

- who has not been previously assessed for indefinite portability under NWC provisions, and
- did not contact Services Australia before the departure
- will only have access to general DSP portability and their payment will generally suspend after they have used 28 days in a rolling 12 month period

If the customer contacts **after** they have departed, and did not contact before departure, they cannot be retrospectively approved for indefinite portability for that departure.

**Note:** the NWC decision for a manifest customer only needs to be made once. When the decision is made the first time, the coding will be done on the 47E(d) screen and will apply to future departures.

The Resources page contains links to:

#### On this page:

Administrative requirements for NWC assessments

Issue forms for NWC assessment

Returned forms for NWC assessment

Check report and finalise portability decision

## Administrative requirements for NWC assessments

Table 1: For Centrelink International Services (CIS) staff only.

Step	Action		
1	Customer contacts + Read more		
	A customer contacts to test their eligibility under the NWC provisions. If you do not have the customer on the phone you will need to contact them after the following eligibility checks.		
	Note: in all cases, the 47E(d) must be used.		
	To receive indefinite portability under the NWC provisions, a customer must have 'No future work capacity'. If they are working and reporting employment income it is possible that they will not meet the NWC provisions. They may also not be entitled to DSP. See Commencing or returning to work or self-employment Disability Support Pension (DSP).		
	If the customer is legally blind, earnings is not a factor. See <u>Income and assets tests for blind customers</u> .		
	Complete checks before issuing forms, go to Step 2.		
2	Check if the customer is a former resident + Read more		
	A <u>former resident</u> has no portability for 24 months from the date of returning to reside in Australia. A NWC assessment will not override this. The customer can undergo a NWC assessment while they are still a former resident, however any NWC decision would only apply for departures after the former resident provision has expired.		
	On the <sup>47E(d)</sup> screen, check the <sup>47E(d)</sup> field.		
	Is the customer a former resident?		
	<ul> <li>Yes, and are:</li> <li>leaving within 3 months of former residence ending, go to Step 3</li> <li>going to an agreement country that covers DSP, go to Step 9</li> </ul>		

about:blank 3/13

- not going to an agreement country or leaving within 3 months of former residence ending. Customer is not payable overseas, finalise script and annotate the 47E(d) the customer is not payable. Procedure ends here
- No, go to Step 3

#### 3 Check if customer has already met NWC provisions + Read more ...

Customers who have already had a portability assessment and met the provisions of indefinite portability under the NWC rules do not need a new assessment. The assessment is valid for all future travel while DSP is current.

Check the following screens:

 47E(d) screen > 47E(d)field. If NWC:

screen > 47E(d) 47E(d) field, key if payable indefinitely and needing proportional savings

is not coded, go to Step 4

screen, check where the Continuing Inability To Work (CITW) occurred as this affects rate of payment. If CITW occurred:

 in Australia, proportional savings apply. Remove 47E(d) from the 47E(d) screen

 outside Australia, check <sup>47E(d)</sup> screen and update <sup>47E(d)</sup> screen with current <sup>47E(d)</sup> from date of departure from Australia

**DOC** and 47E(d) coding for more refer to the 47E(d) **DOC**, 47E(d) confirmation

Finalise the 47E(d) including:

- · issuing script generated XOB101 letter, and
- **DOC** outcome

Procedure ends here.

4 Check if the customer is manifestly medically eligible for DSP + Read more ...

> If the customer has been granted DSP by meeting one of the current manifest eligibility conditions, they do not need to undergo an NWC JCA assessment as they automatically meet the requirements. There must be a valid code on the 47E(d) screen.

> If the customer has one of the following codes in the 47E(d) field on the <sup>47E(d)</sup> screen, a JCA is not required:

47E(d)

If '47E(d) is recorded for a customer who is DSP/DSB (Blind), a NWC assessment is not necessary, however for indefinite portability a SA013 form is required. Send a SA013 form to be completed and returned for assessment. Procedure ends here.

If the 47E(d) field displays a discontinued manifest code 47E(d) or 47E(d) a NWC assessment is required. Go to Step 8.

If the customer:

- has a current 47E(d) on the 47E(d) screen, go to Step 5 on 47E(d) screen, go to Step 8 does not have a 47E(d)
- 5 Customer is manifestly eligible for DSP + Read more ...

A decision that the customer is eligible for indefinite portability must be made before the customer departs Australia. If the customer contacts after they have departed, and did not contact before departure, they cannot be retrospectively approved for indefinite portability for that departure.

Is the customer advising of a future departure?

about:blank 4/13

- **Yes**, run the 47E(d) . This will code NWC on the 47E(d) screen. The customer is entitled to indefinite portability. Procedure ends here
- No, go to Step 6

#### 6 Determine if the manifest customer has contacted prior to departure + Read more ...

A NWC portability assessment is considered to have occurred (and the customer is eligible for indefinite portability) if either of the following happens **before** departure:

- the 47E(d) is run, or
- the customer advises of the departure (normally done online through the Travel Outside Australia Online Service)

**Note:** currently the Travel Outside Australia Online Service is not advising manifest DSP customers to contact CIS. This means the NWC coding may not have occurred. If departure details were given through the online service and payment has suspended, staff must code the NWC details and restore payment.

Did the customer advise of their departure before the departure?

- Yes, code NWC on the <sup>47E(d)</sup> screen from the date the customer departed Australia. The customer is entitled to indefinite portability. Procedure ends here
- No, go to Step 7

#### 7 Manifest customer contacts after departure + Read more ...

If a customer only contacts the agency **after** they have departed Australia (including when they have returned to Australia), tell them they:

- · are not eligible for indefinite portability for that departure
- need to contact before their next departure in order for staff to assess them for indefinite portability

#### Staff must:

- run the 47E(d) with the historical departure details. Do not issue the XOB101 pre-departure letter.
   Note: when the 47E(d) is run after a customer has left Australia, it will still state the customer is eligible for indefinite portability. This advice may not be correct in this instance. 47E(d)
- delete the NWC coding on the 47E(d) screen within the activity before finalising the script
- annotate the s47E(d) DOC to state: 47E(d)

.47E(d)

If payment is cancelled the customer will need to reclaim DSP when they return to Australia, or they can claim from overseas if they are in an <u>agreement country that covers DSP</u>. If the customer is in one of these countries, <u>go to Step 9</u>.

If the customer is not in an agreement country and they are still overseas, tell them their payment cannot be restored and/or they cannot apply for payment until they return to Australia. Procedure ends here.

If the customer has returned to Australia and their payment is suspended, see <u>Returning To Australia</u> and <u>Continuation of payment on their return to Australia</u> to determine if their payment can be restored. Restore payment if applicable. Tell the customer they are not eligible for indefinite portability for the departure, and they need to contact before their next departure in order to be assessed for indefinite portability. Procedure ends here.

#### 8 Check if the customer has left Australia + Read more ...

Generally, a customer must be in Australia to apply for indefinite portability under NWC provisions (and undergo a portability assessment). A customer who is overseas must return to Australia to apply.

A customer who leaves Australia after completing the medical assessment and interview may contact about the assessment outcome, check 47E(d) to provide the customer with the status/outcome.

If the customer is in or travelling to an <u>agreement country that covers DSP</u>, they may be able to have a <u>severely</u> <u>disabled assessment</u> depending on sufficient medical evidence being available.

Note: if the customer has not undergone a medical assessment in the past 2 years, issue an AUS109 form.

Complete the following checks:

008-03120040 print page screen if departed from Australia 47E(d) 47E(d) for severely disabled/NWC documents Is the customer in Australia? • Yes, go to Step 10 No, go to Step 9 9 Check if the customer is in an agreement country that covers DSP + Read more ... If the customer has departed and travelled to an agreement country that covers DSP, a severely disabled assessment may take place under agreement provisions. Contact the customer before the severely disabled assessment and referral for a JCA (medical review of entitlement) file assessment. Run the 47E(d) and to the question 'Would you like us to carry out a new assessment of your medical condition?', select '47E(d) International Disability Officer (IDO) Admin specialist officer? • Yes, Disability Support Pension (DSP) severely disabled assessments for International Agreements. No, an <sup>47E(d)</sup> will generate and allocate to IDO Admin skilled staff. Procedure ends here. 10 Confirm customer wants to proceed with NWC assessment + Read more ... Ask the customer the following question: 'By agreeing to do this review, you are agreeing to a reassessment of your DSP under the current impairment tables. There is a possibility that your payment may be cancelled as a result of this reassessment of DSP. Do you still wish to proceed with the reassessment?' Tell the customer: · if they do not return the forms, the assessment cannot proceed • they must have the JCA before they leave Australia If customer confirms they want to proceed with NWC assessment: run the 47E(d) to the question, 'Would you like us to carry out a new assessment of your medical condition?', select '47E(d) IDO Admin specialist officer? Yes, see Table 2 No, an <sup>47E(d)</sup> will generate and allocate to IDO Admin skilled staff. Procedure ends here

#### Issue forms for NWC assessment

Table 2: For International Disability Officers (IDO) Admin specialist staff only.

Step	Action
1	Issue NWC forms and letter + Read more
	Create a Q999 letter and use the relevant text.
	Include AUS142 and AUS222 forms and 2 reply paid envelopes.
	Note: bilingual forms are available for AUS142 and AUS222.
	Add customer information to forms and send with the Q999 letter.

about:blank 6/13

0/15/24, 3:12 PM	008-03120040 print page FOI/LEX 81670 - Page 21 of 47			
	Complete any open work items relating to NWC.			
	Go to Step 2.			
2	Requesting47E(d) + Read more			
	If the customer was granted DSP before June 2010, 47E(d) must be requested and scanned to the customer's record. This is needed for a Job Capacity Assessment (JCA) to be completed.			
	Check 47E(d) to see if medical information is already scanned.  Is the medical information scanned to the customer's record?			
	• Yes, go to Step 3 • No:  • 47E(d)  • 47E(d)  • once actioned, you will get a link to 47E(d). Use 47E(d)  documents to customer's file  • go to Step 3			
3	Document the NWC progress in Customer Record + Read more			
	In Customer Record, run the 47E(d) relevant information > 47E(d) and answer all			
	Annotate <b>DOC</b> with the 47E(d) and complete any open work items relating to NWC.			
	No more action required until forms are returned.			

## **Returned forms for NWC assessment**

1	IDO Admin staff presented with 47E(d)	+ Read more	
	If the Work Item is:		
	<ul> <li>the return of NWC forms, go to Step 2</li> <li>a NWC 47E(d) DOC that has come due, check 47E(d)</li> <li>a scanned JCA report, see Table 4</li> <li>no JCA report, go to Step 7</li> </ul>	. If there is:	
2	NWC forms have been returned + Read more		
	Check AUS142 and AUS222 for completeness.		
	<b>Note</b> : for AUS222, Section B Q14 must include the professional qualifications (which may be stamped) and be signed and dated by a treating medical professional.		
	Make sure all medical and other relevant information has been scanned and added to the 47E(d)		
	To view 47E(d) information, select 47E(d) icon. If documents are scanned incorrectly and need to be separated or reclassified, complete the following in Customer First:		
	<ul> <li>in 47E(d) , select 47E(d)</li> <li>see <u>Step 7 in Table 1 of Scanning Centrelink medical/sensited</u></li> </ul>	ive documents using an MFD to scan documents	
	The NWC assessment cannot continue until a completed AUS222 not essential for the assessment.	is received. Although an AUS142 is preferable, it is	
	Are both forms fully complete?		

- Yes, go to Step 3
- No, and the customer has returned:
  - only the AUS142, record the details on a DOC. Complete all open work items within skill set.
     Procedure ends here until AUS222 is received
  - only the AUS222, if both Sections A and B are complete, the assessment can proceed. Go to Step 3
  - an incomplete AUS222, call the customer and tell them which missing sections of the form they need to complete. If they do not have a copy of the form, or they cannot be contacted by phone, highlight the missing sections, and return the incomplete AUS222 to the customer. Include a Q999 letter advising them these need to be completed and returned for the assessment to proceed.
     Record details on a DOC using 47E(d) selecting the applicable option. Procedure ends here until AUS222 is received

#### 3 Check for manifest eligibility + Read more ...

Check the AUS222 form > Section B > Questions 2 to 4 about the customer's current medical conditions.

Do the forms indicate the customer is manifestly medically eligible?

- Yes, go to Step 4
- No, go to Step 5

#### 4 Forms indicate customer is manifestly medically eligible + Read more ...

If the scanned forms have 47E(d) classification, change to AUS222 or 47E(d) .

In 47E(d) , the 47E(d) check box **must** be ticked for Job Capacity Assessors to see the scan. See 'Update' option of the scan.

In Customer Record, rerun the 47E(d) customer has a manifest condition.

**DOC** and select the option that

Annotate the NWC 47E(d) **DOC** to state:

- · forms have been returned
- forms have been checked for completeness, and
- 47E(d) has been checked and scans show correct classification

Leave the NWC 47E(d) DOC open. Delete keyword 47E(d) and add keyword 47E(d)

Complete all other open work items within skill set and close all scanned images that relate to the NWC assessment.

The NWC 47E(d) **DOC** will allocate to the IDOs for manifest assessment.

Procedure ends here.

#### 5 Forms indicate customer is not manifestly medically eligible + Read more ...

Check recent travel on the 47E(d) screen and refresh the 47E(d) on the 47E(d) screen if required.

Is the customer in Australia?

- Yes:
  - in Customer Record, rerun the 47E(d)
  - select the forms that have been returned. Make sure the forms do not indicate that medical conditions are manifest > 47E(d)
  - at the end of the script, when prompted to refer the customer for a JCA, select 'Yes'
  - place the open NWC 47E(d) **DOC** on hold 47E(d)
  - complete all open work items within skill set and close all scanned images that relate to the NWC assessment
  - go to Step 6
- No:
  - the customer cannot be referred for a JCA and cannot continue the NWC assessment at this time
  - <u>create a Q999 letter</u> and <u>use the relevant text</u>
  - annotate the NWC 47E(d) DOC stating the customer is not in Australia and that JCA appointment
    will not be booked until the customer returns to Australia and contacts to advise they would like to

about:blank 8/13

continue with the NWC assessment. Close the current NWC 47E(d) DOC. A new NWC 47E(d) **DOC** will be run if the customer returns to Australia and requests to undergo the NWC assessment

- · complete all open work items within skill set and close all scanned images that relate to the NWC assessment
- procedure ends here

#### 6 Job Capacity Assessment (JCA) referral is required + Read more ...

Requests for a JCA must be made using the 47E(d) following fields:

in Customer Record. In the

 47E(d) key 47E(d)

- , select 47E(d) 47E(d)
- 47E(d) key 47E(d)
- select the relevant priority number:
  - o Priority 1, urgent 47E(d)
  - Priority 3 for all other non-urgent cases
- Reason for Referral:
  - 47E(d)

for DSP granted after 1 July 2006

for DSP granted prior to 1 July 2006

- 47E(d) check the tick box 47E(d)
- for the question 'Has the customer resided in Australia for 10 years or do they have a Qualifying Residence Exemption (QRE)?', select 47E(d)
- in the 47E(d) 47E(d) field:
  - copy and paste the following text:

Please advise where the inability to work occurred as this may affect rate of pension. For portability purposes, face to face/telephone interview is usually required (a file assessment can occur where a DSP New Claim JCA and DMA was completed within the last 6 months, which meets 20pts on one table and recommends 0-7 hours work capacity with intervention).

Medical code: Physical or Non-Physical

Interpreter required for this interview [Yes/No] [If yes, specify language]

- · include any other information that will assist Assessment Services to book the appointment (such as access issues or anything else that would affect the customer's ability to attend)
- · finalise script. This must be an open work item for allocation purposes
- remove keyword 47E(d) and add 47E(d)
- assign a priority code of 47E(d) assist Assessment Services with streaming referrals

· procedure ends here

A **DOC** will be created requesting Assessment Services arrange a JCA. Assessment Services are also responsible for rescheduling all JCA appointments.

Note: if the customer has left Australia after the referral was made, Assessment Services Triage will advise CIS by that no JCA appointment will be made. Create a Q999 letter and use the relevant text. Annotate the NWC 47E(d) stating that the customer is not in Australia and that JCA appointment will not be booked until customer returns to Australia and contacts to advise they would like to continue with the NWC assessment. Close the current NWC 47E(d) . A new NWC 47E(d) will be run if the customer returns to Australia and requests to undergo the NWC assessment process.

When the JCA report is returned it will be referred to the IDOs for actioning.

Procedure ends here.

#### 7 JCA report not returned after 6 weeks + Read more ...

The NWC 47E(d) **DOC** has come due because the JCA report has not been returned after 6 weeks.

Follow up the progress of the JCA report:

about:blank

to

- send an email to <u>Assessment Services</u> requesting progress of the JCA report
- annotate the NWC 47E(d) **DOC** stating a follow up email has been sent to Assessment Services and we are waiting for their response
- place the **DOC** on hold 47E(d)

When a response is received from Assessment Services:

- annotate the NWC 47E(d) **DOC** with the reason advised for the delay and the expected completion date
- place the DOC on hold 47E(d)

If Assessment Services advise the reason is anything other than a delay in the completion of the report (for example, the JCA referral was missing information), email the <u>CIS Helpdesk</u> who will refer to the IDOs for help.

## **Check report and finalise portability decision**

Table 4: For IDO Admin specialist staff and IDOs only.

Step	Action		
1	View the JCA report + Read more		
	When a report is received via Workload Manager, select the relevant ESAt/JCA report.		
	Alternatively, in Customer First on the customer's home page:		
	<ul> <li>select 47E(d) menu &gt; 47E(d) to access the JCA report</li> <li>select 47E(d) to view and enable 47E(d) options</li> </ul>		
	<b>Print</b> the JCA report before accepting.		
	The 47E(d) screen can also be accessed by selecting the started 47E(d) activity on the 47E(d) screen.		
	<b>Note</b> : do <b>not</b> select and complete the activity via the 47E(d) screen to accept or return the report. If this is done, the report cannot be accepted or returned on the 47E(d) screen. This will leave the report with a submitted status preventing any new ESAt/JCA referrals from being recorded.		
	If customer does not attend the JCA appointment:		
	<ul> <li>the assessor will finalise as 47E(d)</li> <li>no further action will be taken until the customer contacts and requests a new appointment</li> <li>CIS IDO Admin staff will:         <ul> <li>annotate the NWC 47E(d)</li> <li>In Customer First, notes from the Job Capacity Assessor in the</li> </ul> </li> </ul>		
	47E(d) will explain why the report could not be completed. Add these notes to the annotation close the NWC 47E(d) DOC select report on 47E(d) screen, go to 47E(d) to close the referral system procedure ends here		
	CIS IDOs can only accept JCA reports for referral reasons 47E(d) and 47E(d)		
2	Check that the report is complete and consistent + Read more		
	Check the report to make sure it has been completed with sufficient information to determine income support eligibility and/or portability specific criteria have been assessed correctly. Action the JCA report appropriately.		
	Note: the Continuing Inability To Work (CITW)/Blind residence information is included in the JCA report but is <sup>47E(d)</sup> When a report is accepted, it will automatically populate the 47E(d) screen.		
3	CIS IDO to action the JCA report + Read more		
	Check the JCA report and determine whether to:		
	accept, or     return (reject)

# GUIDE TO JCA and ESAt REPORT WRITING

Helpful

Respectful

Transparent

Release Date: Jan 2024

Version: 2.7

#### 1. Executive Summary

#### JCA Assessment

s22 - out of scope

A JCA assesses a customer's medical conditions and the Diagnosed, Reasonably Treated, and Stabilised (DTS) status, impairment/s (if applicable), work capacity, and the correct employment service provider referral (where appropriate).

- 1.1 The purpose of this guide is to assist Assessors identify the key elements required for a <u>Disability Support Pension (DSP) JCA</u> to be completed in line with the Social Security Guide and the Assessment Services Quality Framework, focusing on:
  - a) The right referral and assessment type
  - b) The right assessment mode
  - c) The right outcome for income support
  - d) The right work capacity for participation, and
  - e) The right onward referral for programme support.
- 1.2 Key points for assessor's guidance:
  - a. Focus is on correct customer outcomes first time, which may include THP contact, changes to referred mode for contact with the customer and/or stakeholder engagement.
  - **b.** Decision-making is justified with medical evidence and aligns with legislative requirements.
  - c. Information from medical evidence and consultation with the THPs/HPAU/SARG and or CA is utilised for decision - making and supported with customer report and assessor observation.
  - **d.** A succinct, easy to read report that provides a clear picture of the customer's current circumstances is best.
  - **e.** Use plain English language without acronyms (or provide full name against acronym used in first instance), keeping in mind that the audience includes Service Officers discussing outcomes with customers as well as the customer.
  - f. The report is consistent across all sections.
  - g. Each report will be tailored to each customer's unique and current circumstances.
- **1.3** Assessors must ensure that medical eligibility recommendations cover period of date of claim +13 weeks, are evidence based, consistent with professional best practice, and appropriately justified. Assessors will include all necessary

information, and will clarify with THPs where appropriate. Information required will vary dependent on individual customer circumstances.	s22 - out of scope
The following pages will assist assessors in ensuring reports are consistent with report writing standards. Links to relevant guidance (Social Security Guide, Operational Blueprint, and Process Guide) are also included.	
Assessor's need to be aware of the different requirements for the various JCA assessments.	

#### 2. Assessment – applicable for JCA and ESAt

- 2.1 Assessment location: the location/site that the assessment has been booked, not the site where the Assessor is located. It can also be generic. Appropriate text to enter includes "Assessment Services Cabramatta Office" or "Services Australia".
  - a) Alternatively, on attendance of an appointment in 47E(d)

the details will populate this field with "Centrelink – Cabramatta". Either notation is acceptable.

- 2.2 Mode of Assessment: Ensure t hat this response correctly reflects how the interview/assessment was undertaken with the customer/nominee.
- 2.3 Date: The date of the report should reflect the date the customer was interviewed. This should prepopulate; however, Assessors should double check it is correct.
- 2.4 Customer Information Sharing Statement (CISS): Ensure that the CISS response is correct.
  - a) For all assessments where the customer has been contacted (Face-to-face, Phone Assessments, Video Conference), <sup>47E(d)</sup> must be selected.
  - b) For assessments where contact has not been made (File Assessments), the CISS must be  $^{47E(d)}$

#### 2.5 Interpreter:

- a) if an Interpreter was used, the Assessor should select <sup>47E(d)</sup> and annotate the <sup>47E(d)</sup> section with:
  - i. Vendor number only (Assessor is expected to confirm the Interpreter's identification; the Vendor Number is located on their ID tag or should be obtained verbally for phone assessments); or
- b) If an interpreter is indicated as required but the customer declines an interpreter or the interpreter is unavailable and the assessment proceeds, the Assessor should select <sup>47E(d)</sup> and annotate this in the <sup>47E(d)</sup> section.
- c) Indigenous Interpreters booked through Aboriginal Interpreting Services (AIS) or Language Services are trained interpreters but may not be accredited. If they are not accredited, instead record their Full Name and the organisation they work for.

#### 2.6 Contributing Assessors (CA):

CAs must be used where the Primary Assessor's qualification does not align with the Impairment Table/s which would be used to rate the primary medical condition, regardless of whether the condition is assessed as DTS, this includes ESAt upgrades (<u>Job Capacity Assessor – Social Security Guide</u>).

- a) CA Matrix notes the CA requirements for each Table Impairment Tables CA Matrix
- b) A CA can be accessed via th 47E(d)

s22 - out of scope

There is no need to include a Contributing Assessor statement in the report.

2.7 Assessor credentials: Assessors are to ensure their credentials in 47E(d) are up to date. 47E(d)

. Credentials can be updated via 47E(d)

once professional

registration has been sighted by the line manager.

2.8 Links: a) Process Guide - 47E(d)

4. Medical Conditions		
JCA Assessment	s22 - out of scope	
<ul> <li>4.1 All medical conditions need to be acknowledged in the JCA report, whether in the Medical Conditions or Assessment Summary sections. <ul> <li>a) Conditions confirmed by the customer as having NO IMPACT can be included in the Assessment Summary. However, it should be clear there is no functional impact i.e a zero rating would be assigned.</li> <li>b) Customer reported conditions with functional impacts are listed as 'Other' in the Medical Conditions section.</li> </ul> </li> <li>s22 - out of scope</li> </ul>	s22 - out of scope	
<ul> <li>4.2 Include the most relevant information for each: Diagnosis, Onset, Treatment, customer self-reported information (if known from interview), and justification of the expectation it will persist for MORE than 2 years OR expectation it will persist for LESS than 2 years status of a medical condition.</li> <li>a) Assessors can now analyse and make assessments based on the evidence, and then provide a succinct rationale that refers the reader to the evidence</li> <li>b) An impairment that results from a specific condition can only be assigned an impairment rating if it is more likely than not, in light of the available evidence, to persist for more than 2 years.</li> <li>c) Optional for symptoms to be noted here, in S47E(d) tab, or work capacity pending writing style and referral outcome etc (they do not need to be replicated in more than one place)</li> <li>s22 - out of scope</li> </ul>		

	FOI/LEX 81670 - Page 34 of 47
4.3 For conditions expected to persist for MORE than 2 years, include a clear and concise justification as to whether the condition is:  a) diagnosed, b) reasonably treated, and c) stabilised (DTS).	s22 - out of scope
<ul> <li>4.4 Diagnosed: A succinctly justified and clear outline of the diagnosis, referencing the evidence used, and whether the condition meets the requirements outlined in the Impairment Tables.</li> <li>a) To be valid for DSP purposes diagnosis of a medical condition must be made by an appropriately qualified medical practitioner (includes a psychiatrist for Table 5), or appropriately qualified psychologist for Table 9 – Intellectual Function.</li> <li>b) The following Tables specifically require information from a qualified medical practitioner with support from:</li> <li>i. Table 5 – registered psychologist</li> <li>ii. Table 11 – audiologist or ENT specialist</li> <li>iii. Table 12 – ophthalmologist, optometrist, neurologist or neurosurgeon</li> </ul>	s22 - out of scope
4.5 Reasonably Treated: A justified and succinct statement referring to treatment provided according to the medical evidence, focusing on whether the treatment outlined in the evidence is considered reasonable.  a) "Reasonable" = treatments that are evidence-based with scientific, peerreviewed research findings (i.e. alternative or complementary medicine or treatments without such research evidence are not considered to be reasonable treatment for DSP purposes)  A condition may be considered as reasonably treated even if treatment is continuing or	s22 - out of scope
is planned, where it is clear that the customer's functional capacity will not improve within the next 2 years.	

	FOI/LEX 81670 - Page 35 of 47
<ul> <li>4.6 Stabilised: A succinctly justified and clear outline of the prognosis, based on the medical evidence, paying particular attention to whether the condition is likely to significantly improve within two years.</li> <li>a) To be considered stabilised, it must be established that the customer has undertaken reasonable treatment and what the prospects are for any significant functional improvement to occur in the next 2 years (i.e. prognosis).</li> <li>47E(d)</li> </ul>	-00
4.7 Ensure 'Verified', 'Diagnosed', 'Reasonably Treated' and 'Stabilised' boxes are consistent with the assessment of the condition.  a) All conditions assessed as expected to persist for MORE than or LESS than 2 years need to be verified and linked to valid evidence.  s22 - out of scope	s22 - out of scope
4.8 It should be clear to the end reader where all information has been obtained through adequate referencing, including THP name and date of evidence, as well as customer report and Assessor observation. 47E(d)  s22 - out of scope	s22 - out of scope

 f) \$22 - out of scope

5. Impairment Tab	
JCA Assessment	s22 - out of scope
<ul> <li>5.1 Each individual Impairment Table contains a set of instructions that are to be followed when applying a rating.</li> <li>Typically, these: <ul> <li>a. specify body functions to which that Table should be applied,</li> <li>b. specify which practitioner can diagnose,</li> <li>c. instruct that self-reported symptoms must be supported by corroborating evidence,</li> <li>d. provide examples of corroborating evidence that can be taken into account when applying that Table, and</li> <li>e. indicate conditions commonly associated with that Table.</li> </ul> </li> <li>s22 - out of scope</li> </ul>	s22 - out of scope
5.2 The Tables are function-based rather than diagnosis-based - they focus on assessing the impact of impairment on normal functions as they relate to work performance, and then assigning a rating consistent with the identified severity level. Where Table/s used would not normally be used for the condition, a rationale must be included to provide insight to the end reader.	
<b>5.3</b> The number of conditions does not always correspond to the number of impairments.	
<ul><li>a) A single condition may result in multiple functional impairments, and these should be assessed on all relevant Tables.</li><li>b) Alternatively, two or more conditions may result in a common impairment,</li></ul>	
<ul><li>in which case, only one relevant Table should be applied with a combined rating.</li><li>c) Care must be taken to ensure that different Tables are being used to assess</li></ul>	
separate functional impacts – if the same impairment is assessed more than once, this is classified as "double-counting" and is not allowed.	
Where the impact of a condition has already been accounted for under another Table or condition then a 0 Impairment Rating can be applied for the 'second' condition with comment that the impact is already accounted for under 'Table/Condition'	

FOI/LEX 81670 - Page 37 of 47 **5.4** 'Functional Impact' section - include the relevant severity-related comment from the Impairment Table and only include the descriptors that are required to justify the impairment rating specific to the customer (delete those that do not apply and check the opening statement reads well). to save you time but ensure you review and delete those not applicable. The examples provided in the Tables are a guide for Assessors when selecting the appropriate rating - these should be removed to avoid reader confusion. **5.6** If an impairment is considered as falling between two ratings, the lower rating is to be assigned and the higher rating must not be assigned unless ALL the required descriptors are fully met. In these cases, details should be provided as to why the customer does not meet the higher rating by identifying the specific descriptors that are not met. This ensures a thorough understanding of decision-making by all potential

**5.7** Current medical evidence (less than 2 years old) must be used to describe the customer's functional abilities. 47E(d)

a) Use 47E(d)

47E(d)

end readers.

- a) Selection of one type of evidence over another should be justified with any discrepancies in evidence clarified with the current THP.
- b) Evidence should be considered as a whole and inconsistent evidence clarified prior to making an impairment rating.

Exceptions to this rule are where the condition is stable and impact on function would not be anticipated to have fluctuated over time i.e amputation

- 5.8 Indicate source of evidence (i.e. medical evidence/customer report/assessor observation).
- **5.9 Assessor observations:** Assessors should note any observations of the customer that are relevant to the report. These observations are "point in time" and should not solely be relied upon for the assessment of an impairment. Where Assessor observation is included, must provide details that justify the accuracy of their observations. If the observation of the customer's function falls outside of the Assessor's professional discipline, consultation with a CA must be undertaken.

5.10 Supporting Reason box must be completed for all reports – S22 - Out of scope

S22 - Out of scope

5.11 Where a Full Scale Intelligence Quotient (FSIQ) is available, only the IQ Range is to be written in the report, NOT the FSIQ.

7. Barriers, Interventions, Support Requirements	
JCA Assessment	s22 - out of scope
<b>7.1 Barriers and Interventions</b> : - should reflect the customer's specific needs and limitations adequately, to support them in their intended referral choice.	s22 - out of scope
<ul> <li>a) ensure they are consistent with possible service streaming and eligibility (i.e. Assessors need to ensure accuracy and internal consistency.)</li> <li>b) it is reasonable to expect that all customers referred for an assessment will have at least one barrier to employment.</li> <li>c) The 47E(d) field is optional unless the Assessor has selected a barrier or intervention with the code 47E(d) or 47E(d) then further justification is required.</li> <li>d) Are not required where the JCA or upgraded ESAt outcome is: <ul> <li>Medically eligible; and</li> <li>With intervention work capacity 0-7; and Unable to Benefit (no</li> </ul> </li> </ul>	
Employment Services Referral recommended)  7.2 $47E(d)$ is optional to complete and can be left blank. The only instance when this is not optional is when a barrier or intervention with an $47E(d)$ or $47E(d)$ indicator is selected, in these cases, it is mandatory to specify those details in the $47E(d)$ .	s22 - out of scope
<ul> <li>7.3 Support Requirements: - those selected must relate to the functional impacts associated with the customer's condition/s, and need to be consistent with the customer's need for support to find and maintain employment due to their impairment.</li> <li>a) Assessors should ensure consistency between support requirements and</li> </ul>	s22 - out of scope
other aspects of the report. For example, selecting 'Build Work Capacity' would be inappropriate when there is no increase between Baseline and With Intervention capacities.	
<li>b) The duration should reflect the expected duration of the condition/s functional impacts.</li>	
<ul> <li>c) Are not required where the JCA or upgraded ESAt outcome is:</li> <li> Medically eligible;</li> </ul>

Operational Blueprint - Assessing CITW

9. Recommendations and Summary Tab	
JCA Assessment	s22 - out of scope
<b>9.1</b> The report must provide an appropriate referral recommendation to an Employment Service Provider (ESP) who is able to provide the most appropriate level of assistance. An appropriate referral will be justified based on current customer circumstances and evidence available to the Assessor.	s22 - out of scope
<ul> <li>9.2 A referral recommendation must always be recorded if the customer has the capacity to work 8 or more hours in open employment, regardless of any other current circumstances.</li> <li>a) For voluntary customers, the referral should not be actioned.</li> <li>For those who appear to be working/studying/volunteering/caring at their assessed capacity, a referral recommendation still needs to be recommended and actioned.</li> </ul>	s22 - out of scope
<ul> <li>9.3 'Unable to benefit' should only be recorded when: -</li> <li>a) The customer has a With Intervention work capacity of 0-7 hours per week (i.e. cannot achieve a work capacity in open employment of 8+ hours per week within 2 years with intervention), and</li> <li>Are not suitable for referral to DES with Ongoing Support.</li> </ul>	s22 - out of scope
<ul> <li>9.4 The Summary must include notation as to whether the referral was discussed with the customer, whether the customer requested referral to a particular ESP, and/or any deferred referrals.</li> <li>a) There should be no surprises to the customer. If a referral is recommended to a Provider that the customer is not currently engaged with then a discussion needs to be held with the customer – including calling the customer if the report was completed as a file.</li> </ul>	s22 - out of scope
<ul> <li>9.5 Any information relevant and not recorded elsewhere is to be reported in the Summary, including:</li> <li>a) no impact medical conditions,</li> </ul>	s22 - out of scope

#### **10. Other Report Considerations**

- **10.1 Copy function**: if used, proofread and make adjustments. Ensure all timeframes and information are updated to reflect the customer's current circumstances, check if barriers, interventions and support requirements are still relevant and check the author of the work.
- **10.2 Sensitive Information** when writing a JCA or ESAt report Assessor's must be mindful, particularly when using direct quotes from medical evidence, to ensure privacy of sensitive information is maintained. Assessors need to use their professional judgement to determine what level of detail is reasonably necessary to meet legislative requirements for medical eligibility or referral outcome requirements.
  - a) Assessors should be mindful of the broad range of potential end-readers, including the customer, service officers, ESPs, and legal practitioner, and as such, language and content should be considerate, respectful, and maintain the privacy of the customer and Assessor colleagues.
  - b) Where suicidal ideation or past suicide attempts are noted, a brief risk assessment with any action taken if risk is high should be included.
  - c) Information regarding the below dot points should NOT be included in the report:
    - i. Details concerning personal trauma/torture/specific paranoias or delusions which are not reasonable necessary
    - ii. Details concerning criminal convictions
    - iii. Specific details of past suicide attempts, suicidal ideation and/or self harm that are not reasonably necessary
    - iv. Identifying details of others whether they be alleged victims, witnesses, or perpetrators, where their identity could be ascertained (i.e. sibling, parent).
    - v. Disparaging comments about previous ESAt, JCA, MAT, AAT, and HPAU reports
    - vi. v.i Any Services Australia staff member surname (current or previous staff).
    - vii. vii. Naming of illicit substances
    - viii. FSIQ score (only range and confidence interval to be included)
- **10.3** Personal Factor Impact must be completed, however Rationale is optional and can be left blank. The impact of medical conditions must not be considered here. See <a href="Personal Factors">Personal Factors</a> and <a href="Personal Factors">Personal Factors</a> Considerations' (Process Guide) for further guidance if required. Personal Factor Impact rating should reasonably reflect severity of the non-vocational barriers identified for the customer.
- **10.4** Employment History/Goals: outlining a customer's employment history is important as this assists with assessment of work capacity. Consider including past employment, duration, when they last worked, number of hours, and reason for leaving.
  - a) Only needs to include detail that supports the JCA outcome when it is not included elsewhere in the report when the JCA or ESAt upgrade outcome is:
    - Medically eligible; and
    - With Intervention Work Capacity 0-7; and
    - o Unable to Benefit (no Employment Services Referral recommended) (As per JCA Efficiencies Aug 23)

47E(d)

Recording previous referrals to employment service providers is not required.
