

Scammers on social media

Scammers are on social media. They pretend to be from Services Australia, Medicare, Centrelink, myGov and other trusted organisations.

Scammers want to trick you into sharing your **personal information**. They want to **steal your money and identity**.

They might say they can help you do business with us, get a No Interest Loan, or an emergency payment. **They are lying.**

Never share your myGov username or password.

Never click links in private or direct messages on social media.

If you've clicked a link or shared your personal information, you need to get help. Call us on **1800 941 126**.
