How to use the CDBS

Make an appointment with a dentist and let them know you get the CDBS.

At the appointment, the dentist must tell you what services your child needs and how much it will cost before they start. If you agree you will need to sign a consent form.

Claiming benefits under the CDBS

If your dentist bulk bills, you do not need to make a claim. Bulk billing means you do not have to pay for your medical service from a health professional.

If your dentist does not bulk bill, you need to pay the amount to the dentist and then claim your benefit from us.

You cannot claim a benefit under the CDBS and from a private health insurer for the same dental service.
