Hi Sherree and s 47F(1)

Really nice to meet you both this morning.

We met with Craig Palmer this afternoon and received a good overview of the work his team are doing.

s 47E(d)

As a heads up, Craig mentioned he will likely touch base with you both to understand the potential PoC and provide some input.

In the meantime, we will wait by the phone 😊

Cheers,
s 47F(1)

Palantir (Palantir Technologies)

Palantir Technologies offers advanced data integration and analytical platforms, notably Palantir Gotham and Palantir Foundry, which are designed to assist organisations in aggregating and analysing vast datasets to inform intelligence decision-making. These systems are widely used across various sectors including government agencies, financial institutions and healthcare organisations to address complex data challenges. ^{s 47C, s 47E(d)}

This system is known to be used by AUSTRAC for managing their vast financial data holdings and is also known to be used by Australian intelligence agencies. ^{s 47C, s 47E(d)}
