

Budget 2026-27

This information is accurate as of 12 May 2026.

Boosting productivity - Digital ID

CATEGORY: Services Australia

Services Australia contributes critical functions that enable delivery of the Australian Government Digital ID Systems (AGDIS).

This includes:

- administering the Digital ID Exchange connecting information between government services and Digital ID providers within the AGDIS
- operating the myGov platform, which the myGov LinkID attributes as an accredited Attribute Provider service.

Services Australia also delivers the functions of the system administrator which manages the day-to-day operations of the AGDIS under the Digital ID legislation.

This measure will provide funding to continue:

- ongoing delivery of Services Australia's Digital ID Exchange, which allows users with a Digital ID to connect to government services from 1 July 2026 when existing funding ends
- maintaining compliance with the accredited functions of the Digital ID Exchange platform, and the myGov platform
- ongoing operations of the AGDIS system administrator function, including delivery of the AGDIS Administrator Portal that will become the primary access point for all AGDIS participating entities to provide relevant updates to the System Administrator.

Services Australia will get \$135.2 million through to 2029-30 to implement this measure.

This measure is led by the Department of Finance.

This measure isn't subject to legislation passing.

Who this measure affects

This affects people who use Digital ID.

When this starts and finishes

This measure starts 1 July 2026 and is ongoing.
