

Child Support Agency Electorate data - June 2008

The Child Support Agency (CSA) paying parent and receiving parent data in the table below is based on postcode information extracted from the CSA computer system as at the end of June 2008.

It applies to paying parents and receiving parents for all active cases and cases that have ended with arrears. This varies from previous years where data was extracted for active cases only. Paying parents and receiving parents without postcodes are not reflected in the electorates but are recorded at the base of the table.

Further information is included in the Facts and Figures publications released by the CSA. These are available from the publications section of the CSA website (www.csa.gov.au).

Postcodes in each electorate have been determined by use of a concordance provided by the Department of the Parliamentary Library, and is in turn based on electorate boundary information provided by the Australian Electoral Commission (AEC).

Where a postcode is spread across two or more electorates, CSA uses these proportions to apportion the respective percentage of paying and receiving parents into those electorates. For example postcode 3174 falls 37.3% within the electorate of Isaacs, so 37.3% of the receiving parents and paying parents in postcode 3174 are counted as being in the electorate of Isaacs.

Notes to Table:

¹Each Child Support 'case' involves

- parent who is liable to make Child Support payments towards the cost of one or more children (termed a paying parent), and
- a person entitled to receive Child Support (termed a receiving parent), and
- one or more children for whom Child Support is payable.

² These customer totals relate to all paying and receiving parents that could be distributed into the electorates above.

³ Some customers are associated with "International Cases" and therefore do not have an Australian postcode.

⁴ There are 184,312 parents for whom a postcode was unavailable. Most were on tracing at the end of June 2008.

⁵ 'Unused postcode' refers to those customers whose postcode does not appear in the algorithm used by the CSA to allocate customers into electorates. Postcodes are excluded where that postcode has been created since the algorithm was constructed.

⁶ These are the total number of customers (paying parents and receiving parents) of the Child Support Agency as at 30 June 2008, allocated to late 2007 electorate distribution.
