This data represents the March quarter 2011 data.

Payment: Family Tax Benefit, Source: BDS, Extract date: 25/03/2011.

Some records can not be assigned to an electorate. Approximately 80% of these are explained by customers living overseas or whereabouts unknown (WUK) on the Centrelink system. The remaining 20% of client addresses could not be recognised by the coding process. Consequently, the associated data has been excluded from this table.

The information contained in this table cannot be used in any external publication without approval.

Family Tax Benefit Caveats:

1. Around 75 per cent of all families with at least one dependent child aged under 16 are eligible to receive FTB. Therefore, it should be viewed differently to other Centrelink payments which by their targeted nature can help to identify segments of the population considered to be disadvantaged. FTB is too broadly targeted to serve that purpose.
2. Approximately one-third of FTB customers also receive Income Support Payments and may be shown in both categories.
3. Information shown here in regard to FTB Part A and Part B refers only to fortnightly instalment customers paid directly by Centrelink. It excludes an additional 10 per cent (approximately) who are paid through a Centrelink lump sum which is claimable at the end of a financial year.
4. Where the tabulation shows FTB Part A and B separately, approximately three-quarters of customers will appear in both categories as they are in receipt of both payments.
5. This information represents the current population at a point in time and does not represent the total eligible population for the financial year.
