Rent Assistance Caveats:

Members of an income unit may receive more than one type of social security payment and/or FTB. The primary payment type is based on the following hierarchy: pensions, followed by allowances, Parenting Payment (Partnered) and then FTB Part A. Most families with children are paid Rent Assistance with FTB, but use of primary payments helps to understand the extent of reliance on social security payments.

Income unit numbers relate to those with an ongoing entitlement to a social security or FTB Part A payment at more than the base rate at **1 June 2012** (Housing dataset June 2012).

Where a member of a couple receiving Parenting Payment (Partnered) has a partner receiving a social security income support payment, the partner's income support payment will become the primary payment type. Parenting Payment (Partnered) will be the primary payment only if the partner does not receive another income support payment.

Notes: Income units consist of a single person or a couple, with or without dependent children. Eligibility for Rent Assistance depends upon family circumstances including the combined rent paid by members of a couple. Where both members of a couple living together qualify for Rent Assistance, the maximum payment is halved.

If born before 1/7/52, Age Pension age is 65

If born before 31/12/48, Age Pension age is 64.5

If born between 1/1/49 and 30/6/52, Age Pension age is 65

For men and women:

Centrelink pays the vast majority of Age Pensions. Age pensioners who also receive a Disability Pension from the Department of Veterans' Affairs (DVA) have the choice of having their Age

Wife Pension - Age and Disability (WFA, WFD)

An income support payment for the female partner of an age pensioner. There have been no new grants of Wife Pension since 1 July 1995.

Current WFA recipients remain eligible to receive this payment until otherwise disqualified from receiving it, or until they reach age pension age

To qualify to receive Wife Pension (DSP) you must be the wife of a Disability Support Pension recipient

Widow B Pension (WID B)

An income support payment to ensure customers have an adequate level of income if they are an older widow who does not qualify for parenting payment, have limited needs, and have lost the financial support of their partner. There have been no new grants of Widow B Pension since 20 March 1997.

Current Wid B recipients remain eligible to receive this payment until otherwise disqualified from receiving it, or until they reach age pension age

The majority of Widow B Pension recipients (around 95 per cent) live overseas and could not be assigned to an electorate

Special Benefit (SpB)

An income support payment for customers who are in severe financial need due to circumstances beyond their control and who are ineligible for any other income support payment.

Family tax Benefits part A and B (FTBA, FTBB)

Family Tax Benefit: 73% of all families with at least one dependent child aged under 16 are eligible to receive FTB. Therefore, it should be viewed differently to other income support payments which by their targeted nature can help to identify segments of the population considered to be disadvantaged. FTB is too broadly targeted to serve that purpose.

FTB Maximum Rate: Where a tabulation shows FTB customers on the maximum rate, these generally have family incomes of less than \$46,355 (for 2011/12) or \$47,815 (for 2012/13). However, there is a large group of customers whose family incomes are less than \$46,355 (for 2011/12) or \$47,815 (for 2012/13) but who do not receive the maximum rate of FTB due to their receipt of child support income and the operation of the maintenance income test.

FTB and Income Support Payments: Approximately one-third of FTB customers also receive an Income Support Payment and may be shown in both categories.

Payment by Instalment versus Lump Sum: Information shown here in regard to FTB Part A & Part B refers only to fortnightly instalment customers. It excludes an additional 8% (approximately) who are paid through a lump sum which is claimable at the end of a financial year.

Point-in-time data: This information represents the current population at a point in time and does not represent the total eligible population for the financial year.

FTB Part A and Part B: Where the tabulation shows FTB Part A and Part B separately, approximately three-quarters of customers will appear in both categories as they are in receipt of both payments.

Family tax Benefits part A and B (FTBA, FTBB) Post June 2012

On 1 July 2012, the major repository of FTB Instalment Management Information formally moved to the new package. As part of this break-in-series, definition and scope of FTB customer populations have been redefined and hence, caution is urged for any trend analysis of FTB data pre and post 1 July 2012.

Boundaries Information

Customers who live overseas and those without a valid address cannot be assigned to a boundary (e.g State, electorate, SLA, LGA, postcode etc.). These are represented by an underscore. They represent approximately 1% of customers across FaHCSIA payments.

The Basic Data Set (BDS) boundaries numbers may differ slightly to the boundaries numbers from other non-BDS sources as the BDS uses an address hierarchy which may differ to other sources of data.

National totals are not affected by the address hierarchy.

The BDS uses ABS 2011 ASGS to obtain LGA's as it is more accurate than Postcode to LGA concordances.

Customers who live overseas and those without a valid address cannot be assigned to an LGA, therefore the totals of the LGA's do not equal the National totals - the correct national total is represented at the bottom of the LGA columns. Nor can the State LGA's be added to show the State totals. To obtain State totals use the numbers in the State/Postcode tab. The customer affected by this are represented by 'Unknown'. They represent approximately 1% of customers across FaHCSIA payments.
