

Social Security Agreement between Australia and Hungary

Australia's social security system

Australia's social security system is different to most other developed countries. Each person's pension is paid by the Australian Government out of general funds, rather than through contributions paid by individuals and employers into a social insurance fund. For this reason, Australian pensions are income and asset tested.

The Department of Human Services (DHS) delivers Australian social security payments to individuals.

You will have to tell us about all of your and in some instances, your partner's¹ income and assets if you want to claim an Australian pension.

How does the agreement help you?

The agreement generally allows you to lodge a claim for payment from either country. It also allows you to add together your periods of residence in Australia and periods of social security coverage in Hungary, so you can meet the minimum requirements for payment.

Who can get an Australian payment?

If you live in Australia or Hungary, you can lodge a claim for the Australian Age Pension in either country.

To qualify under the agreement, you need to meet the following basic requirements*:

Age Pension

You may be able to get Age Pension if:

- you are over the qualifying age (refer to humanservices.gov.au for details), and
- the total period of time you have lived in Australia and/or your periods of coverage in Hungary add up to more than 10 years.

Note: if you live outside Australia when you claim, and have less than 10 years Australian residence, you need at least 12 months Australian Working Life Residence², of which six months must be continuous.

* There may be additional requirements you need to meet before you can be paid.

Who can get a Hungarian payment?

Under the agreement, you can add periods of Australian residence² to your periods of coverage in Hungary to meet the minimum requirement for Hungarian Old Age Pension and Survivor's Pension.

The Hungarian pension authorities make all decisions about Hungarian payments. For more information about Hungarian payments, you should contact the Hungarian pension authorities³.

Disclaimer

The information contained in this publication is intended only as a guide to payments and services available.

The information in this factsheet is accurate as at July 2019. If you use this publication after that date, please check with us that the details are up to date.

Should I lodge a claim?

We can't be sure if you will get a payment, until you lodge a claim and your circumstances are taken into account. It is your responsibility to decide whether you lodge a claim for payment or not.

From what date are the payments available?

Most government payments are paid from, or after the date on which the application is made so the sooner you lodge your application, the quicker you may be paid.

For Australian payments, you must lodge your claim and all supporting documents at the same time. If you don't your claim may not be accepted.

What do you need to do when dealing with a third party?

You may deal with a third party who is not a member of our staff. If you do so, please remember that we have not authorised any third parties to provide information or advice to you about payments.
