

Makadirio ya mapato kwa malipo ya usaidizi wa familia

Ili kuhesabu ni kiasi gani cha Family Tax Benefit na Child Care Subsidy (Faida ya Kodi ya Familia na Ruzuku ya Utunzaji wa Watoto) tunacholipa, tunahitaji kujua mapato ya familia yako yatakuwa nini kwa mwaka wa fedha.

Hii inamaanisha unahitaji kutupa makadirio ya pesa zote ambazo familia yako itapata katika mwaka wa kifedha, yote yako na ya mpenzi wako. Sisi tunaita hii adjusted taxable income yako (mapato yako yaliyorekebisha ya kodi).

Mapato yako yanaweza kuwa zaidi mnayopata wewe na mpenzi wako kutoka kwa kazi zenu. Ikiwa unafikiri unaweza kupata kupanda kwa malipo, kufanya kazi masaa zaidi, au kupata ziada katika mwaka wa kifedha, unapaswa kuzijumuisha pia.

Pia unahitaji kujumuisha mapato mengine kama malipo ya Centrelink au ya uziada na uwekezaji.

Unaweza kusasisha mapato yako katika makadirio yako ikiwa umesahau kujumuisha maelezo fulani. Kwa kweli unapaswa kusasisha makadirio yako ya mapato kila wakati kuna mabadiliko.

Mwishoni mwa kila mwaka wa kifedha, tunalinganisha kile tulichokulipa kulingana na makadirio ya mapato yako na mapato yako halisi ya kodi.

Ikiwa makadirio yako yalikuwa ya chini sana na tulikulipa sana mno, unaweza kupata deni. Utalazimika kurudisha kulipa hii.

Ikiwa makadirio yako yalikuwa ya juu na tulikulipa chini ya ulivyostahili, tunaweza kukulipa juu tena.

Njia rahisi ya kusasisha makadirio yako ya mapato ni mtandaoni. Tumia akaunti yako ya Centrelink mtandaoni kupitia myGov, au programu ya simu ya Express Plus Centrelink.

Piga simu kwa **131 202** kuzungumza nasi katika lugha yako kuhusu malipo na huduma za Centrelink.

Income estimate for family support payments

To work out how much Family Tax Benefit and Child Care Subsidy we pay, we need to know what your family's income will be for the financial year.

This means you need to give us an estimate of all the money your family will get in a financial year, both yours and your partner's. We call this your adjusted taxable income.

Your income might mostly be what you and your partner earn from your jobs. If you think you may get a pay rise, work more hours, or get a bonus in the financial year, you should include that too.

You also need to include other income like Centrelink or redundancy payments and investments.

You can update your income in your estimate if you have forgotten to include some information. In fact you should update your income estimate every time there is a change.

At the end of each financial year, we compare what we paid you based on your estimated income with your actual taxable income.

If your estimate was too low and we paid you too much, you may get a debt. You will have to pay this back.

If your estimate was high and we paid you less than you were entitled to, we may pay you a top-up.

The easiest way to update your income estimate is online. Use your Centrelink online account through myGov, or the Express Plus Centrelink mobile app.
