Confirm your income for Family Tax Benefit

At tax time every year you need to let us know how much money you got so we can make sure that you were paid the right amount of Family Tax Benefit (FTB).

How it works

Any income you get during a financial year affects the amount of FTB you get from us. Income can be money you get from working or from some Centrelink payments.

A financial year is from 1 July to 30 June the next year.

If you got income from working in the financial year, you may need to lodge a tax return.

If you did not work and got a Centrelink payment for the whole financial year, you may need to tell us you do not need to lodge a tax return.

We look at the income you got during the financial year and check it with the family income estimate you gave us. A family income estimate is the amount of money you told us and thought you would get for the financial year.

We will then work out if you:

- did not get paid enough FTB and we owe you money
- got the right amount of FTB and no payment is due
- got too much FTB and you owe us money.

This is called balancing your payments or top up. We will send you a letter to let you know we have done this.

What you need to do

You need to lodge a tax return or tell us how much income you got for the financial year.

You have until 30 June of the next year to do this.

We will work out if you were paid the right amount of FTB and balance your payments.

If you do not lodge a tax return or tell us your income by 30 June, you will get a debt and might have to pay back all the FTB you got in the financial year.

If you get a debt, we can look at fixing your debt after you lodge a tax return or you tell us how much income you got. We will work out if you were paid the right amount of FTB and balance your payments.

If you got paid the right amount, we will get rid of your debt. If you still have a debt after we balance your payments, we can help you plan to pay back the money.

If you separated from a partner during the financial year, you do not need to ask them for any information. We will balance your FTB after you tell us how much income you got and use the income estimate provided for your ex-partner if they have not lodged a tax return yet.
